# Making New 3d-Floor Records

---breaking old ones-setting a pace so fierce that equaling our prices must mean loss of profit and perhaps a big slice of cost. We were lucky enough to size up just what kind of a department this city wanted, and ours has been a "go" from the day of its opening. You can come here to get daintiness without a too big frill of profit. You can come here and get selection without the usual accompaniment of exorbitant prices. This is not like the department store china department as you find it in Washington, but more like a swell and exclusive establishment to whose success we've devoted a full meed of pus h enterprise and capital.

# Another Old-Time Men's Underwear Sale.

It came earlier this year. Heretofore we've realized a fair profit off our stock before we cut off cost and gave it over to you at bargain prices. But Summer outstayed her welcome this fall and we've had to pay the fiddler. Our expectations have naturally been somewhat greater than business has turned out, and while we've the consolation of having done more than our share of what underwear trade there was, nevertheless that doesn't reduce stock, so we've resorted to drastic measures and for tomorrow every penny's profit has been lifted off prices.
